President's Message

Henry Benitez, President, Product Safety Engineering Society

First of all, I wish to invite all of you to the 3rd annual IEEE Product Safety Engineering Society Symposium this October 23-24 in Irvine, California. The technical program has remained excellent. I thank Richard Nute for his heroic efforts in putting together high quality programs for the first three years of this Society. The symposium is evolving to include product compliance for safety, electromagnetic compatibility and environmental compliance aspects. The symposium attendance and number of exhibitors is expected to increase significantly for years to come.

It is nearing time to renew IEEE PSES membership. The success of our young Society depends on increased membership, successful symposia and financial viability. We are moving in the right direction with our symposiums. We need to continue to increase our membership. I suggest

Product safety engineering addresses safety engineering for equipment and devices used in the scientific, engineering, industrial, commercial and residential arenas. Areas of interest include aerospace, automotive, biomedical, communications, computers, consumer products, instrumentation and testing, power products and life sciences. Many safety engineers deal with product certification issues and have interests in many areas.

IEEE Product Safety Engineering Newsletter readers are design professionals, design engineers and researchers involved in electrical product safety, product safety engineering and product compliance certifications.

CONTRACT REGULATIONS: All billing subject to short-rate or rebate to earned rates, depending on the frequency actually used during a 12-month period.

LIABILITY: The publisher reserves the right to hold advertisers and/or their advertising agencies jointly and severally liable for money due and payable to the publisher. Publisher is not liable for delays in delivery and/or nondelivery in the event of Act of God, action by the government or quasi-government entity, fire, flood, insurrection, riot, explosion, embargo, strikes whether legal or illegal, labor or material shortage, transportation interruption of any kind, work slowdown, or any condition beyond the control of the publisher affecting production or delivery in any matter.

PUBLISHER'S PROTECTION CLAUSE: The publisher reserves the right to cancel or reject any advertising at any time and to add the word "ADVERTISEMENT" at the top of any copy which in the publisher's opinion simulates editorial matter and might be misleading to the reader. The publisher will not be bound by any conditions, printed or otherwise, appearing on order blanks or copy instructions when such conditions conflict with the regulations set forth in the rate card. Advertiser and/or agency to indemnify, defend and save harmless the publisher from any and all liability for content of advertisements printed (including text, illustrations, representations, sketches, maps, trademarks, labels or other copyrighted matter) or unauthorized use of any person's name or photograph, arising from the publisher's reproduction and publication of such advertisements pursuant to the advertiser's or agency's order.

Electronic Files

Supply a high quality digital proof. We cannot accept files without proofs. Do not compress files. Send files on Zip disk or CD. All e-mailed files must be under 5 mb.

Acceptable formats:

QuarkXpress documents using the "Collect for Output" from the file menu:

- Supply all the elements that went into creating the files – fonts (both screen and printer), art files (eps) and the high-resolution images.
- Include a list of all items contained on the disk, including fonts.

EPS (Encapsulated Postscript) which contain 300 dpi bitmap formatted files:

- Use only Adobe Type 1 fonts. No True Type fonts, please.
- Supply a list of fonts that are used in the file.
- All color elements must be in CYMK.

TIFF/JPG/PDF

- All color elements must be in CYMK.
- Any bitmap images must be 300 dpi at final printed size.
- Fonts other than Helvetica or Times should be converted to outlines in CDR files.

Unacceptable formats:

We do not accept the following file formats:
 GIF DOC Any other formats not listed.

Also, we cannot accept files from page layout programs such as PageMaker, FrameMaker, Corel Ventura, or QuarkXpress which do not adhere to specifications noted previously.

We cannot be held accountable or responsible for any electronic files which have not been prepared correctly.

The Advertiser and/or its Agency accept full responsibility for the accuracy and integrity of the supplied electronic files.

Our production staff reserves the right to reject electronic ad material which will not process or reproduce correctly to meet quality standards, or that are missing elements such as fonts or high-resolution graphics.

If we are asked to preflight or troubleshoot supplied files, there will be a charge of \$100 per hour, with a one-hour minimum charge. These charges will be added to the invoice.

Send material to: Jim Bacher,
 j.bacher@ieee.org.
